## FARM BUREAU POLICY ... Gives Full Protection—Meets all Requirements

The Farm Bureau policy complies with all requirements of the Motor Vehicle Safety-Responsibility Law, which was passed at the 1946 Session of the Kentucky Legislature and becomes effective January 1, 1947.

The easy way to get full protection is to buy a Farm Bureau auto policy for only a few dollars a year. Yes, it's the best buy in auto insurance. It's the only policy offered in Kentucky that was written solely for farmers by farmers. And the Farm Bureau Company is the only Company in Kentucky owned by Kentuckians and operated by Kentuckians.

The Farm Bureau policy provides protection on Public Liability and Property Damage. Complete Coverage is written also—at low cost.

**Friendship—Three Thousand Miles Apart**

Ever play chess? It's a great game! One of the strongest friendships I know of started with a game of chess—between Dad Hocking, in our town, and a man named Dalton Barnes, in England.

They've never seen each other, never met. But for the past eight years they've been playing chess by mail together—Dad puzzling over Dalton's latest letter, while he sends a chart of his next move to England.

Dad always thinks of best beside his chessboard. And the Englishman writes him that he does the same. "You know, it's almost as if we shared a glass of beer together, too!" says Dad contentedly.

From where I sit, you can talk about diplomacy and foreign policy, but it's often those little things—like a game of chess or a glass of beer—that can make for tolerance and understanding ... between people of all nations ... between neighbors here at home!

**Breckenridge Lane To  
Get Strip Of Sidewalk**

A new sidewalk in front of the Llewellyn Laundry, on the north side of Breckenridge Lane in St. Matthews, seems to be assured.

Representing the laundry at a session of the Jefferson Fiscal Court last week, Otto Mock, architect, told the Court that the Llewellyn firm desired to build a sidewalk, provided the County would join in the project to the extend of removing all surface water in the area.

In discussing the matter, it was brought out when Breckenridge Lane was reconstructed some years ago no adequate provision was made for taking away the impounded water that accumulated when heavy rains fell.

Gordon Winburn, County right-of-way agent, and William Roberts, road engineer, were instructed to work with Mock in a study of the situation and report back to the Court.

It is thought probable that the water can be taken westwardly by means of a tie line, to a city sewer on Cannon's Lane.

Jefferson County residents will consume more than 96,350,000 quarts of milk products this year in maintaining the county's high nutritional standards, it was predicted today by the nation's leading distributor of dairy products.

"With a near record supply of milk coming from the nation's dairy farms, consumption of dairy products this year will nearly equal that of 1945 when more than 60,000,000 quarts were consumed," said G. W. Diehl, head of A & P Food Stores national dairy department. "A 22 percent increase in per capita consumption of milk during the war years helped overcome loss of nutrition caused by curtailed supplies of fats and oils and helped bring about the nation's high nutritional wartime levels."

Jefferson County's 3,100 farms are expected to produce more than 24,700,000 quarts of milk this year.

Our community was shocked and grieved Monday morning when they learned that Mr. Puckett's house was on fire. There was no one at home at the time but Mr. Puckett and his little daughter.

Mr. Puckett does not know just what caused the fire. He went up to his barn and while there noticed smoke coming from the house. He called the Fire Department but had to go some little distance to a phone.

The fire was under such headway, the Fire Department could not do any good when they got there. There were three fire engines. The fire burned so rapidly, the roof soon fell in. They could not save very many things. All of the neighbors were alerted and everybody did everything they could.

Mr. and Mrs. Puckett and children are spending tonight (Monday) with Mr. C. O. Fisher and family. They have not decided just yet what they will do.

The Puckett family are such nice, friendly neighbors we all sincerely hope that they will build back on the same foundation.

Mr. and Mrs. Gene Ray Brown and baby and Mrs. Ida Carithers attended the shower given Mr. and Mrs. Franklin Fulkerson, who have just recently gone to house-keeping. Corporal Fulkerson has returned recently from service. They had a nice crowd present and received many useful gifts.

### Seventeen Jeffersontown Students At U. K.

By Royce Hedden

Meat prices might be soaring and John L. Lewis may be threatening another strike but at the U. of K. it's "business as usual" for the 6,800 students enrolled there. Out of this 6,800 it is worth noting that a total of 17 hail from Jeffersontown. This is an excellent percentage per capita for a town of this size. Many of these students are getting their first dose of concentrated study for a number of years, having been idle scholastically due to service in the Armed Forces. Others, who have come straight from high school are finding the subjects much easier. However, everyone seems to be getting along fine and no fatalities are expected.

There are five young ladies listed among the group. Of these five, three are freshmen. They are Misses Ruth Haag, Ruth McCracken and Evelyn "Norie" Taylor, who are majoring in Physical Education, Psychology and Secretarial Management, respectively. The two sophomores are Miss Virginia Haug, who is majoring in English Literature, and Miss Yvonne Haldiman who is taking English Grammar as her major.

Yamie spent her freshman year at the University of Missouri, transferring here this fall. All of the girls are happy about their facilities at the University and find their schedules are working out quite satisfactorily.

The male representatives with the exception of one, are all graduates of Jeffersontown High School and well-known through out the community. If one walks across the campus it is hardly possible to complete his journey without meeting at least one of these studious individuals loaded down with books and hurrying to his next class. There are five freshmen among the group. All are veterans and are entered under the benefits of the GI Bill of Rights for veterans. Three of these five, John Swain, Travis Duer and Royce Hedden are enrolled in the College of Commerce and have selected a Business Management curriculum. Sarena Duer and W. D. Huddleston are in the College of Arts and Sciences and are taking Industrial Chemistry and Radio Arts respectively. Looking at the roll of upper classmen we find three boys who are in their second consecutive year in the Armed Forces. Others, who have come straight from high school are finding the subjects much easier. However, everyone seems to be getting along fine and no fatalities are expected.

There are five young ladies listed among the group. Of these five, three are freshmen. They are Misses Ruth Haag, Ruth McCracken and Evelyn "Norie" Taylor, who are majoring in Physical Education, Psychology and Secretarial Management, respectively. The two sophomores are Miss Virginia Haug, who is majoring in English Literature, and Miss Yvonne Haldiman who is taking English Grammar as her major.

These other local boys who had their education interrupted due to the war, are Forrest Radcliff Jr., Charles Lovett and Charles Huddleston. Forrest and Charles Lovett both entered together as pre-med students in the Fall of 1941, after graduation from Jeffersontown. Now, after returning, they have re-entered and are proceeding from where they left off. Charles Huddleston is the lone individual who was not graduated from Jeffersontown. He graduated at Monticello, Ky., and from there went to U. of K. and embarked upon a law course. He completed his freshman year and like many others was also inducted into the Army. Re-

turning last Spring, he went one quarter and re-entered this Fall as a sophomore. All of these students are happy about their facilities at the University and find their schedules are working out quite satisfactorily.

Ervin "June" Albrecht from St. Matthews was a student at Jeffersontown and enrolled in the Army before graduation. After returning, "June" secured his diploma and is now at the University of Kentucky. From Fern Creek I saw Kenneth Reeves and Jim Woodrow. They are both in the Army. Kenneth Reeves, Oakley Brown Jr., is putting the finishing touches on a course in Aeronautical Engineering. He was the fellow who supervised the Jeffersontown playground last summer and is well-known by the younger set. Middleton is also represented by Phil Pearce, William Clark and Kenneth Young. Taking everything into consideration, U. of K. is a pretty busy place and all reports will be in for a while. With the securing of Coach Bryant for football and his outstanding success season, the expectations for "super-season" for Rupp's boys in basketball, Kentucky is emerging as one of the great college basketball nations. However, it is definitely overcrowded. There are not enough classrooms, dorms and facilities in general. The university was built and equipped to handle a maximum of 4,000 students. The present enrollment now approaches 7,000. Proof of this congestion can be had at any athletic event. All football games are sell-outs tickets going weeks and months in advance. Further proof is the fact that in order for all students to have a chance to see some of the basketball games they had to be divided into two groups. The "A" group sees part of the games and the "B" group another part. Civilians cannot see the third party and they are allowed admission to a few of the games also. The building of one permanent men's dormitory is being planned, but there is no evidence of any new classrooms or a new fieldhouse. Some of our illustrious state representatives might make a note of these facts and possibly look into the situation.

NEW YORK—One of the more understandable reasons for people to come to New York is to "see a play." That is about the only distinction the metropolis has left by way of diversion in this day of radio, motion pictures and TV.

The old-timers still are on "Oklahoma," "How to Succeed in Business Without Really Trying," "The Life with Father," "State of the Union," "Voice of the Turtle" in the drama—you may have seen some of their troupes on tour.

Such season hits as "Born Yesterday," "Dream Girl," "Annie Get Your Gun," "Call Me Mister," "Three to Make Ready," still draw big crowds.

The new season, haltingly getting under way, is far from memorable alone for Eugene O'Neill's "The Iceman Cometh"—a grim four-hour parade of unemployed characters in a New York saloon of 1912. Begins at 5:30 p.m., recesses at 6:30 for dinner, resumes at 7:30 and on to 11. Star is the wonderful old vaudeville hoofer, James Barton, playing a former drunk who tries to get his old pals to abandon the bottle for the higher life.

That's about all there is to the long evening—done superbly well, if you like that sort of thing. Still, it is the questionable state of the New York stage as of now, this new season.

Persons below the age of 16 years are not permitted to fly under Federal regulations though children as young as eight years have learned to fly planes.

## Kentucky Lake State Park on Largest Man-Made Lake in World

By RUSSELL DYCHE, Director Kentucky State Parks

"Largest man-made lake in the world, with a shore line longer than that of all the Great Lakes combined." That is what you might hear from any of the thousands of men and women so enthusiastic about the recreation possibilities of Kentucky Lake, that body of water impounded in Western Kentucky behind the greatest of the several T. V. A. dams, at Gilbertville.

It might be added that it is also one of the most beautiful bodies of water in the country; and possibly the prettiest stretch of it all, certainly the most strategically located at the western terminus of the highway, U. S. 88, is Kentucky Lake State Park. Its 1200 acres stretch along the shore approximately four and a half miles, on both sides of the bridge, and contain many sites that afford the prettiest possible views.

Boat docks, installed and operated under lease to private interests, care for every variety of water craft from the smallest row boats to Diesel powered excursion boats and the harbor provides anchorage for the largest yachts roaming inland waters. Swimming, fishing, duck shooting, picnicking and the like have already become popular there, though State Park developments have not yet gotten under way.

Of the \$450,000.00 appropriated by the 1946 legislature and approved by the Governor, \$180,667.00 has been allocated to the development of Kentucky Lake. First developments will be in the day-use area, just south of the bridge and will include bathing beach and picnic grounds, with bath house and necessary parking areas, shelter and concessions; and as many vacation cabins as the available funds will permit. Group camps also have high priorities, and Kentucky investment bankers have formed a committee to co-operate with the State in financing through the issuance of revenue bonds a modern lodge and other needed facilities.

Approximately 800 acres at the north end of the land donated to the State by the Tennessee Valley Authority will be developed into a State Park, to be known as Charles E. Smith State Park. Between the two areas will be an adequate buffer strip, so there will be no possible connection between the two areas. The State will play to the fullest the complete State Park facilities provided for them.

### Much Hybrid Corn Grown in Kentucky

Seventy-one percent of Kentucky's 2,481,000 acres of corn this year was planted with hybrid seed. The Kentucky Seed

Improvement Association says approximately 1,000,000 acres were planted with Kentucky certified seed. In other words, about 40 percent of the crop is from Kentucky certified hybrid seed, 30 percent from hybrid seed, and 30 percent from

from open-pollinated corn. The average corn yield in Kentucky this year is expected to exceed 35 bushels an acre, an all-time record. This is due to the good season, the application of fertilizer, the good growing season and the use of hybrid seed.

### CATTLE PRICES NOT ALWAYS AS APPEAR

Many farmers who entered the Kentucky corn derby reported yields of over 100 bushels to the acre.

"It is erroneous to think that most of the cattle being marketed by farmers being the market prices quoted in newspapers and other market reports. As a matter of fact, by far the greater portion are sold for prices considerably below top prices," says a report made public by the Livestock Committee of the Kentucky Farm Bureau Federation.

Top prices for cattle make the headlines, but what the average consumer does not understand is that it is only the exceptional individuals which command these top prices. Furthermore, the meat from these top animals does not, as a rule, get into the regular channels of trade but is sold to hotels, exclusive restaurants, night clubs, etc.

"During the time when the headlines told that cattle were bringing 25 to 30 or more cents a pound, the vast majority of cattle were selling for from 18 to 20 cents a pound. Many considerably below that. Often only a truckload or less of cattle commanded top prices."

"The marketing of cattle is seasonal, with heavy runs coming in the fall months. A comparison of totals marketed in 1946 as of October 18 compared to the same period in 1945 shows negligible difference in the two figures—115,000 for 1945 and 117,000 for 1946."

### Put Away a Bag Of Potatoes For Winter

In the midst of shortages of many foods the Irish potato crop is not only abundant but has continued to climb to an all-time high. The United States State director of the Production and Marketing Administration, said today.

A nation-wide campaign is being mapped, he said, both to stimulate immediate consumption of potatoes and to urge home storage in those areas where it is practicable.

The United States Department of Agriculture's October production crop estimate put 1946 production at 47 million bushels, an all-time record, and 16 million bushels above the September figure, Dudley said.

He pointed out that there is an estimated maximum of 55 million bushels of late Irish potatoes in the country, and that, although permanent storage can take care of most of the production, around 20 to 25 million bushels must go into home storage or commercial storage at terminal markets if unnecessary waste is to be avoided.

Breaking this down into terms of family purchase and use, Dudley said that to use this abundant supply each family in the nation would need to consume one bushel in the next six months and that each family in states where storage is recommended would need to store at least a 50-pound bag of potatoes to offset the shortage of permanent storage facilities.

### Pass the Sugar!

One hundred million pounds of raw sugar lay in the holds of ships in New York harbor alone last week—and nobody could get it ashore due to the maritime strike. With no sugar, four large refineries had to shut down, idling several thousand men. And the nation's sugar bowl went empty.

### HEAVY LITTER IN WASHINGTON COUNTY

A 14-year-old litter raised by Alex Barber of Washington County weighed 5,315 pounds and brought \$59.10. Feed, pasture and labor were valued at \$410.80, leaving a profit of \$180.33. County Agent Trill Young records that the pigs consumed 61 bushels of corn, 44 bushels of barley, 44 bushels of wheat, 200 pounds of protein supplement and 700 pounds of semi-solid butter-milk and whole milk. They ran on clover and bluish grass.

Approximately 500,000 people in this country have tuberculosis, according to conservative estimates. Half of these are "unknown cases"—people who may not know they are ill yet may be spreading the disease.

About one-fourth of all the paper used in this country is newsprint.

### PRIZE BULL

### High View News By Mrs. Joe Baets

Several High View folks attended Navy Day Memorial Service for Louisville and Jefferson County at Memorial Auditorium Sunday, October 27, at 3 p. m. The following couples went to Reno Valley for the week end of October 19: Mr. and Mrs. A. J. Goins, Mr. and Mrs. Hilary Baets, Mr. and Mrs. Carl Boehler, Mr. and Mrs. Thomas Boston and Mr. and Mrs. Joe Moore. All reported a fine show and a splendid time.

These same couples, including Carolyn Baets, went to the camp on Salt River Saturday night, October 28, for their last time this summer. They cooked chicken soup in a large kettle and had everything to go with it and enjoyed a jolly good feast and enjoyed games around the fire.

Mrs. Elizabeth Hudson has been in Florida for the past week with her daughter, Patsy. Her parents, Mr. and Mrs. Joe Field, have been keeping store.

Mr. and Mrs. Arthur Wright have traded places with their son-in-law, Marvin Higgins, on the corner of the Medical and Glaser Lane. Each of these families moved last week.

Mr. and Mrs. C. D. Pauley of Orlanville spent the day with their daughter, Mrs. Charles Lamm, and family Sunday.

The Ladies' Bible Class, which was discontinued for the summer months, started again this week with an all-day meeting in the home of Mrs. William Downing. Secret Pal names were revealed for the past year and each one received a nice gift. Names were also drawn for the coming year. This class will meet every two weeks on the first and third of each month.

The High View Church gave a day Sunday with his sister, Mrs. D. S. Bukey, and Mr. Bukey. Mrs. Bukey was recently married by a horse but is doing nicely. Mrs. Edna Roby remains on the sick list while Mrs. Dave Wright and Mrs. Alma Campbell are both out again.

Mrs. Nannie Baets left recently fracturing three ribs and her leg. She is some better at this time.

Mrs. Nell Koehler left this (Monday) morning for Mitchell, Ind., to be with her sister, Mrs. May Edwards, who is very poorly with the cancer.

The wives wished to congratulate Mr. and Mrs. James Franklin Ellingsworth (newlyweds). Sorry we were unable to attend the wedding or shower, but we wish them the best of luck in every way.

Miss Charlene Stovall was hit in the mouth with a ball while playing at school. She has a very sore mouth and looks jaw sore. She was given. Hope she will soon be well again.

Mrs. G. V. Lane gave a Halloween party for her daughter, Anna Katherine, and the following schoolmates: Doris Burroughs, LeVonia Hughes, Carolyn Baets, Louise Whitt, Bonnie Anderson, Sammie and Johnny Whitt and Mary and Charles Cox. Some of the girls remained as overnight guests.

The High View Church gave a Halloween party for the young ones as well as some grownups Saturday night at the home of Mr. and Mrs. Edw. Schreiner. Everyone enjoyed themselves to the fullest. There were about 40.

Miss Dorothy Mae Schreiner is now living in the home of her brother, Edward Schreiner, and family on Manassas Road.

The Armour Creamery Company put on a very nice show and display of milk equipment and different types of eggs and their care at the High View School Friday night. A large crowd was present.

The High View Fire Department made their first run with their new fire apparatus this Monday morning in an effort to help save the home of Mr. Puckett which was completely destroyed by fire. The Fern Creek and Bushy departments were there also. The fire had to be put out headway to save anything.

Mr. and Mrs. Julian Alcorn and daughter, Virginia, and Mr. Alcorn's father, Mr. Carr, spent Sunday in Campbellsville.

Mr. Marion Hunsley of McAlester, Okla., who has been spending some time with the Alcorn family, has returned to his home.

### Newburg News By Mrs. J. H. Shively

Brother Huggins came out to fill his appointment Sunday, but on reaching the Pryor he found such a grief-stricken family and by request he stayed with them having a sermon on "Religious Priority." The Lord provided us a preacher.

The Halloween party sponsored by the school club was very entertaining and enjoyable. The decorations had very much the spirit of Halloween. A great array of costumes was displayed in the grand march. George Edward Kaufman won the prize Teachers' contest. Mrs. J. H. Shively was appointed as judges by the club president, Mrs. Julius Hart. Kaufman and music were furnished by local talent. Refreshments consisted of hot chocolate, Christmas gifts—and reasonable.

The ladies of the church circles had a very profitable all-day meeting Thursday with Mrs. Cook and Mrs. Shively quilting on Mr. O. J. Stiver's quilt, "The Paisley Shawl." Plans were about completed for a bazaar to be given about the first week in December. We expect to have some practical Christmas gifts—and reasonable.

Correct date and full details will be given next week.

Mr. and Mrs. Mullins of Wingo, Ky., and daughter and grandson of New York were guests of Mr. and Mrs. L. P. Jones recently.

Mr. and Mrs. Cook and Mrs. Shively had a pleasant surprise Sunday afternoon when Dr. and Mrs. P. A. Davis called. We are always so glad to see them.

How did miss Mr. and Mrs. Carl Frey Sunday at Sunday school and church. They were so very faithful. We hope they are not sick.

### OWSLEY COUNTY MAN GREW HUGE TOBACCO

C. M. Burch, of Island City, Owsley County, predicts that his 41A tobacco crop he grew this year will yield more than a ton to the acre. The leaves averaged more than 20 to the stalk and some of them were 12 inches long and 20 inches wide. Farm Agent H. M. Williams says that in addition to plenty of phosphate and a good cover of corn, Burch applied 200 pounds of ammonium boron and 1,000 pounds of mixed fertilizer to the acre.

### BLACK BEAUTY

The Baste family are proud of some concrete work they have had done including walks and floors in chicken houses. Their building is going along nicely. The hold-up now is the plaster board.

Mr. and Mrs. A. J. Goins spent the day Sunday with his sister, Mrs. D. S. Bukey, and Mr. Bukey. Mrs. Bukey was recently married by a horse but is doing nicely. Mrs. Edna Roby remains on the sick list while Mrs. Dave Wright and Mrs. Alma Campbell are both out again.

### SEASON HERE FOR FORAGE-POISONING

A warning to guard against feeding mule hay, silage, corn-dodder, grains and other feeds has been issued by Dr. V. W. Dimock of the U. K. Experiment Station, as this is the season when animals become ill from forage-poisoning.

Corn, corn stover, hays and silage are especially dangerous to horses and mules, he said. For pigs and chickens, corn, garbage, spoiled canned fruits and vegetables are common sources of the poison.

One of the symptoms of forage-poisoning is paralysis. Affected animals have difficulty swallowing. This condition is most evident in horses. Animals, especially pigs and chickens, are often unable to stand. In chickens the disease is called lamber-neck, because the head hangs limp.

To prevent poisoning of stock, Dr. Dimock suggests that farmers make sure feeds are sound and of good quality and that corn be properly cleaned and stored. Other advice:

Never feed silage to horses and mules.

Never feed spoiled canned goods to pigs and chickens.

When stock becomes sick and symptoms point to forage-poisoning, change the feed at once; then have the suspected feed tested.

Dr. Dimock points out that corn in the center of big cribs sometimes fails to dry out properly, so becomes a source of botulism or forage-poisoning. Such

The Reverend Davis, former pastor of Middletown Christian Church, occupied the pulpit at Newburg Christian Church Sunday morning in the absence of Bro. Harold Vaughn. His subject was "Priorities in Religion," showing that God, the Church and the Lord's Day should always have priority in the Christian's life.

Our sincere sympathy is extended to Mr. and Mrs. Philip Frey and family in the sudden death of their daughter, Miss Bernice Marie Frey. The funeral was conducted Monday from the home by Bro. Harold Vaughn and interment took place in Hebron Cemetery.

Games were played and prizes were won by James Gregg and George Vogt. Ice cream, cookies and Halloween candy was served. Thanksgiving is in the air. One can hear the gobble of turkeys on farms in this community. Of course this makes one think of the big dinner on that holiday, but let us most of all have the Spirit of Thanksgiving for all the blessings we have enjoyed in the past year.

We wish to thank friends, relatives, flower donors and the minister, Brother Stott, for the kindness shown in the illness and at the death of Bertha Lowe—Mrs. Ollie Melone and family.

IN MEMORIAM

BRAINER—In loving memory of Corp. John M. Brainer, killed in action in France, November 14, 1944.

It broke our hearts, dear Johnnie, when they sent you away. But God alone knows our sorrow, since two years ago today. Many hours of sadness, many unshed tears.

Many are the memories, as the days have turned to years. Your smiling face stands before us as you said your last farewell. So straight and tall before you went with that smile we loved so well.

Your blue eyes, your brown hair, we can still so plainly see. And within our hearts we cherish thoughts. Of one we loved so dear.

Sadly missed by Mother, Sister, Nieces and Nephews.

KRAMER—In loving memory of Charles K. Kramer, who departed this life on November 7, 1945.

Crossing the bar, his life came to a close. To spend eternal years in sweet repose. To spend that day, to call him home that day. Memories of his advice, will linger always.
